

COLLEGIATE PREP

## COLLEGIATE HIGH SCHOOL

LeeWay Academy is a private high school in Dallas, Texas. Started in 1988 as an umbrella for academically accelerated students who wanted to maximize their opportunities for learning. LeeWay has grown into a highly selective independent private school for motivated students focusing on preparation for and success at university.

Each student follows the State of Texas Foundation Degree Plan with Distinction. Classes are curated from accredited 3<sup>rd</sup> party colleges, schools, and online resources. Classes are taught by certified professors, licensed teachers, and approved instructors either in person or online. Each class is arranged independently to facilitate the best outcomes, eliminate busywork, and increase mastery. Our model encourages life-long learning through extensive and highly selective Athletics, Internships, and Career-Based Certifications in tandem with Dual Credit, Advanced Placement, and IB coursework. Each student's path is individualized.

We begin with an academic assessment then match each required course to the student's aptitude, interests, personality, and life goals. We place each student into prearranged, carefully curated classes and supervise their progression while documenting the results. We balance academics with community service, leadership experiences, and exploration to assure the student is ready for college and adult life. LeeWay students participate in a broad range of clubs, student government, and honor societies, building a professional resume to showcase their achievements and experiences.

Where, when, and how each class is taken is tailored to the student. LeeWay offers extensive educational options including on-campus college courses via dual credit, live Advanced Placement course, in-person IB and A-level programs, as well as customized therapeutic instruction when approved. All classes are focused on mastery & college readiness.

LeeWay graduates are consistently accepted at top universities throughout the US & Europe, and most are gifted generous merit scholarships in recognition for their academic coursework.

**LeeWay is a true paradigm shift in education.**

***Our goal is well rounded, independent, life-long learners!***
